directed to invite the attention of the Mayor to the necessity for liming the gutters. The first Tuesday in each month was fixed as the time of meeting, at 7 o'clock p. m., and the board then adjourned.

RIVER FRONT .- Business around our wharves seems more brisk than for some time past, in consequence of the frequent arrivals of coal and ice boats. The coal dealers are laying in their stock for next winter, and carts, horses and men are kept busy. Large piles of lumber, too, show that the dealers in building material are driving a thrifty business. The ice compaare driving a thrifty business. The ice compa-nies' carts are running constantlythis hot weath-er, hardly giving men or horses time for rest. Ice companies seem to thrive well this year, not-withstanding they have to depend on northern ports altogether for supplies. MEETING OF THE FIRST WARD BOWEN SQUAD. The remnants of the party in the First Ward known as the Bowen crowd held a meeting last night at the Stevens school-house under the leadership of Wm. Syphax as president, the gang having become ashamed of Henry Himber, their former president, and kicked him out.

A committee appointed at a former meeting to smell out the republicanism of certain respectable colored men who have denounced their disorderly proceedings and supported Mr. Emery at the last election, made a report. They say as to Mr. Alfred Jones (who cares about as much for them as a mastiff does about a drove of yelping curs) that after careful and thorough search in his case they find that while holding the position of trustee he voted in favor of purchasing some ground for the use of the schools, and to pay 45 cents per foot, when, by going out into the slashes, they could have bought it for 12 cents per foot, and further that said Jones does not affiliate with everybody of his own color, preferring to choose his own company. In the case of Henry Johnson, messenger to Secretary Boutwell, Thomas Martin, messenger to the commissioner of customs, and John H. Brooks, messenger in the navy department, they find that each of them have the independence to select their own associates, and have totally ignored Bowen, the noble eight, Cook, Morse, Himber, et al., and rendered aid to the democrats; that Cornelius Clark is a disappointed office seeker; that Walker White, John M. Botts, T. J. Harris, John E. Clark, Newman Ward, and Wm. Schueler, have associated, affiliated, and acted with the copperhead democrated in our service of the true Borne. much for them as a mastiff does about a drove Ward, and Wm. Schueler, have associated, affiliated, and acted with the copperhead democracy in opposition to the true Bowen party;
that none of those named should be recognized
by members of the Bowen club of the First Ward.
That they, however, hope each of these men
may yet repent, and, seeing the evil of their
ways, return to the republican party, the friend
of all men. The report was received.

A motion was made to exclude A. Jones, H.
Johnson, J. H. Brooks, C. Clark, and J. E.
Clark from this excommunication, but Rev.

Clark from this excommunication, but Rev. Mr. Henderson opposed it bitterly, saying they had sunk themselves with the democratic party. He was particularly severe on Mr. Jones, and He was particularly severe on Mr. Jones, and Mr. Jones being present, asked leave to reply to him, but it was most emphatically denied.

The chair announced the following executive committee:—Wm. Syphax, E. L. Savoy, Henry Himber, James Wormley, and Jerome Johnson.

Delegates to central committee:—C. A. Stewart, D. M. Davis, A. Twine, Francis Taverns, Robert Thompson, and W. H. Bell.

After a long howl from Rev. Mr. Henderson, during which he frothed considerable at the mouth, the meeting broke up, fearful that he was getting rabid.

We understand that the parties charging the

The subject was then taken up of the teachers spending two or three months at the close of the year in reviewing lessons, thus depriving pupils of that much time, and it was plainly hown that the sense of the board (in fact unanimously) was that the reviewing was useless in comparison with the time lost, and that the pupils should be carried straight along in their

studies up to the day of examination. THE SCHUETZEN FEST.—Yesterday was the second day of the Schuetzen Fest at Green Spring, and the festivities were enjoyed throughof ladies and gentlemen in attendance.
